1. What animals produce pearls? Oysters
2. Amazingly, elephants have shown the ability to successfully create what form of art? Painting, guiding the paint brush with their trunks.
3. True or False: Horses usually sleep standing up. True, as their legs have a specialised locking mechanism so they don't fall over.
4. What is the only lizard that has a voice? Gecko
5. Possibly the world's most common bird, it is known in Latin as Gallus Gallus. What is it in English? Chicken
6. Most of America's wild horses are located in what three states? Nevada, Oregon, Wyoming
7. Up to 17 feet in length, what venomous snake with a royal name expands the skin of its neck to form a flattened hood? King Cobra, native to Asia and Africa, which feeds almost exclusively on other snakes
8. What animal spray resembles rotten eggs, garlic and burnt rubber? Skunk Spray, which can project as far as 2 to 3 metres
9. True or false: Those beautiful peacocks, distinguished by their crested head, brilliant plumage, and long spotted back feathers, are always males. True
10. What color eggs do owls lay? White, especially in colder climates, as protection in the snow.
